PROFESSIONAL PROFILE

Computer Engineer with a master's degree in Computer and Automation Engineering, Cybersecurity track, and over 15 years of experience in the IT sector as an IT Project Manager, technical consultant and Full Stack Developer. He manages digital projects from requirement to release: requirements gathering and analysis, prioritisation, coordination of clients, developers, designers and suppliers, progress monitoring, validation, release and evolutionary support. His full stack background (PHP, Laravel, WordPress, JavaScript, MySQL, Linux, Docker) allows him to deal directly with technical teams. From 2021 to 2026, as part of his collaborations with Atomic Consulting and Reverse Studio, he followed and coordinated projects for organisations in the university, healthcare, public, corporate and non-profit sectors, also handling security, infrastructure and evolutionary maintenance. Today he works with his own brands: MeriPac.it for websites and client projects, MeriPac Suite, the suite of online management systems he designed and developed, and Pacca Studio for games and apps. Teacher of Computer Science, TPSIT and Systems and Networks.

SKILLS AND COMPETENCES

- Development of custom web solutions, CRM, web/mobile applications and responsive websites.

Antonio Morlino

IT Project Manager & Technical Consultant · Computer Engineer

WORK AND PROFESSIONAL EXPERIENCE

Founder · Project Manager and Full Stack Developer

MeriPac, marchio di Antonio Morlino — Roma, RM

02/2014 – present

- Design and development of websites, e-commerce, CRM and tailor-made digital solutions for companies and professionals.
- Direct management of projects, from requirements to release, with SEO and support after going live.
- Conception and development of MeriPac Suite: five multi-tenant online management systems on a shared technical base.
- From 2026, games and apps under the Pacca Studio label, for the web, Google Play, Windows and Linux (including Culprit and Meet Recap).

Teacher of Computer Science, TPSIT and Systems and Networks

I.I.S.S. “J. von Neumann” — Roma

09/2022 – present

- Teaching in upper secondary school in the computing area, with courses in Computer Science, TPSIT and Systems and Networks.
- Teaching theory and lab classes on programming, computer networks, systems, security and network architectures.
- Preparation of practical exercises, tests, teaching materials and remedial/advanced activities.
- Participation in lab activities, teaching design and FSL — formerly PCTO — programmes.

- Excellent knowledge of PHP, Laravel, WordPress, JavaScript, MySQL, HTML5, CSS3 and Bootstrap.
- Experience with web environments, hosting, Linux servers and containerised tools (Docker).
- Development of custom WordPress themes and plugins.
- Skills in cybersecurity, problem solving and evolutionary maintenance.
- Management of digital projects, requirements analysis and technical coordination.
- Computer science teaching, lab activities and FSL programmes — formerly PCTO.

Computer Engineer / Project Manager & Full-Stack Developer

Reverse Studio s.r.l. / RVS Milano / Atomic Consulting — Roma / Milano

10/2021 – 10/2026

- Cross-functional collaboration with the affiliated companies Reverse Studio, RVS Milano and Atomic Consulting, covering project management, software development and technical coordination.
- Management and development of custom digital projects for national clients, covering requirements analysis, technical planning, operational coordination and release.
- Development and evolutionary maintenance of websites, custom platforms, CRM and web applications with PHP, Laravel, WordPress, JavaScript, MySQL, HTML5, CSS3 and Bootstrap.
- Coordination of development activities, ticket management, work progress monitoring and direct liaison with clients, designers and technical teams.
- Setup and management of web environments, hosting, Linux servers, migrations, updates, troubleshooting and technical optimisation.
- Support for IT security activities, application hardening, access control, backup and preventive maintenance.
